

Web Design | Adobe Fireworks CS5 | Final Portfolio

Big Idea: You have learned many skills in Adobe Fireworks. Your final task will be to develop a fully functional web portfolio that is exported as a PDF.

Required Components:

- ✓ Overall color theme matches and is consistent throughout
- ✓ Included a banner with name, hour, class, and teacher
- ✓ Exported as a PDF and saved to the appropriate class folder. File should be named firstinitiallastname_portfolio_hour. **Example: rschneider_portfolio_5**
- ✓ All graphic design projects are imported with their original frame backgrounds
- ✓ Spelling and other conventions are correct
- ✓ Index page included an image and written text about the developer...you! This is a polished piece of writing.
- ✓ Overall quality is superb
- ✓ All lines and figures are lined up properly
- ✓ Any added images are properly formatted and resized accordingly
- ✓ All links, internal and external, navigate to the appropriate web page

NAME: _____ HOUR: _____

GRADING RUBRIC
